

Next Generation Solutions for Courts

LRSSYSTEMS
education | technology

Education that creates change. Technology that empowers.

1

New Revenue for Courts:

The LRS Systems transaction-based revenue sharing model enables courts to generate new revenue without any additional costs.

2

Leading Court Education Content Library:

The LRS content library is constantly evolving and growing. We have developed several industry first courses and continue to make changes as new research and technology become available. LRS works with courts to develop customized course content in multiple languages to match individual court needs.

3

Superior Technology Platform:

Industry leading technology allows for best in class security, analytics and content delivery. In partnership with the courts, LRS is able to interface with any CMS to provide real-time results. This helps to create greater efficiency in processing and filing course sign-ups, student progress, course completion, and payments.

A Partner You Can Trust

LRS Systems has developed and implemented successful court education technology solutions for **two decades**. With our proven technology, courses and experienced staff we've earned the trust of courts and judges.

A partnership with LRS Systems means:

- 1.) Revenue for your court*
- 2.) Access to innovative and effective education courses*
- 3.) Industry leading security, reporting and efficiency*

Empower Your Court

Iris Platform

The Iris Platform takes all of the best concepts and tools developed over years of experience, and brings them together to create dynamic classes, greater accountability for students and improved analytics for court staff, while continuing to allow for customization and shared revenue opportunities.

Iris Provides:

- Customized Content
- Online Security
- Multiple Learning Methods and Modules
- Course Content Available in Multiple Languages
- VeriLive: Live Counselor Verification
- Fully Scalable
- Real Time Revenue and User Analytics
- Two-way Communication Interfacing
- Integration with Existing Court Management Systems*
- Full-time Technical and Customer Support Team

*Available with QuickPay online payment processing and collection

Iris Dashboard: Instant Analytics

Increased Efficiency, More Accountability.

One-Stop Convenience

Why go to multiple sites to take care of court requirements? The IRIS platform simplifies the process for courts and students.

- **Course Completion and Verification**
 - Interactive Learning
 - VeriLive security assurance
- **E-payments (fully PCI compliant)**
 - Course Fee Payments
 - Collections of Fines
- **Customer Support (Phone and Online)**
- **Customized Instruction and Reports**

Create Efficiency

Iris's integrated payment collection is as powerful as it is flexible. Interfacing provides courts with real-time access to course completion data, student analytics and full payment collection data for courses and fines.

- **Course Content Management**
- **Real-time Revenue Tracking**
- **Real-time Student Progress Reports**
- **Paperless Filing**
- **Analytics at your Fingertips**

Accountability & Compliance

The LRS course reporting system is designed to create ease of use while delivering industry leading analytics and results without compromising on the educational experience.

- **Expansive Customer Support: Phone, Live Chat and Email**
- **Courses Available 24 hours a day, 7 days a week**
- **Step-by-step student reporting available: Sign Up, Progress, Payment, Completion**
- **Designed for novice and first time computer users**

“The key to any successful partnership is when both sides benefit. In the area of court education, both sides win when defendants are held accountable for what the court has ordered. The LRS Systems IRIS platform is designed with this goal in mind. It creates an environment that helps students succeed and at the same time decreases non-compliance. Students are immersed in a learning environment while the courts are provided with real-time results.”

Richard Vincent, CEO
LRS Systems

Security You Can Trust. Education that works.

VeriLive

Online learning is surpassing in-person learning in many areas. Our interactive online classes create an environment of personal accountability that enhances learning, participation and progress through the course material.

Real-Time Verifications

VeriLive is an industry first online security and learning comprehension verification system. Students have their identity, course comprehension and completion verified individually by trained and certified counselors.

- Highest Guaranteed Identity Verification
- One-on-one Counselor Interaction
- Cost Effective
- Enhanced Learning
- Increased Accountability
- Focused on Reducing Recidivism
- Designed to Ensure Compliance

Quality Education

Technology is changing the way we think about education and reshaping the when, where and how of learning. The same technologies that are changing universities and other traditional schools can provide powerful solutions for court mandated education. LRS Systems can empower your court to promote learning that creates positive change in clients' lives.

Tools for Courts:

- Interactive Online Courses
- LiveClass Integration
- VeriLive Counselor Verification

Providing education solutions for courts is no longer a problem. Partnering with LRS will bring quality educational options to your court without new costs.

"We continue to improve our teaching methods based on results and our students' experiences. With new technologies, education can often seem like an afterthought. We never view education as an afterthought. At LRS we are passionate about education and what it can do to help change lives."
